IN THE MATTER OF NUISANCES
Gilbert C. Myers II, 313 Linden St., Bellefontaine
Mr. Myers owns an open, vacant house and garage at 124 S. Sandusky St., Rushsylvania, with the house containing animal feces and odor, a tub that drains into the basement, broken waterlines in the bathroom, broken out windows and other exterior openings. Registered Sanitarian Matthew Stonerock issued a Sanitarian’s Order on February 7, 2019. On March 4, 2019, Mr. Stonerock, RS, conducted a follow up inspection and observed no change. It was moved by Mrs. Watkins and seconded by Mrs. Price to order the house and garage secured with in seven (7) days of receipt of the order and either repair the house to habitable condition and obtain all applicable plumbing permits and inspections or remove the structures to a licensed disposal facility within thirty (30) days of receipt of the order. Ayes: Dr. Varian, Mrs. Collins, Mrs. Price, Mrs. Watkins. Nays: none. Motion carried.
IN THE MATTER OF REQUESTS FOR VARIANCE

Environmental Health Director Timothy M. Smith presented the following requests for variance from established codes.

Harold and Roberta Appleton, 958 Minerva Ave., Columbus, C/O Teri Frymyer, Choice Properties Real Estate

Mr. and Mrs. Appleton request a variance for their property at 8886 SR 368, Huntsville (north of Lake Ridge Island), from OAC 3701-28-07 (D) and (H) for a replacement well that will be only four (4) feet from the house foundation and less than one (1) foot from a paved parking area. Ten (10) and five (5) feet are required for each, respectively. Sanitarian Lisa Engle recommends approval due to the existing well is drawing sand and an existing gas line runs along the south property line in front of the house. With no room along the sides of the property, this leaves as the only available space for the well to be just to the left (north) of the front door which provides at least nine (9) feet from the existing sewer line, from which no variance is now required since this is for a new well (meets the ten percent allowance). It was moved by Dr. Varian and seconded by Mrs. Collins to approve the variance with a mandate to add some type of protection to the well from parking and/or getting damaged. Ayes: Mrs. Price, Mrs. Watkins, Mrs. Collins, Dr. Varian. Nays: none. Motion carried.

The fee can be paid by check or credit card but the completed application, which will be used to help assess the type of system, must accompany the payment in order to have the correct 1, 5, or 10-year O&M Permit issued. **IN THE MATTER OF PLANNING UPDATES**

Deputy Health Commissioner Donna Peachey reviewed the report of the Strategic Plan 2018 annual review. The Strategic Planning committee consists of seven employees and one board member who review the accomplishments of the past year and determine the final strategies for the upcoming year. The committee met January 23, 2019 to update work plans, review 2018 accomplishments, and set final strategies for 2019. Most strategies have been completed in the 5-year strategic plan. A few new or continued actions were identified to wrap up and finalize this process cycle before re-evaluating a new strategic plan. The largest challenge was implementing an advanced public health education due to funding. Existing staff continue to fill in and provide health education as time and funds allow. A new strategic plan process will begin in the fall of 2019 or the first quarter of 2020. Mrs. Peachey also presented the 2018 Annual Report. Discussion followed about all the work that employees have done to move forward on the Strategic Plan and the nice design of the Annual Report.

**IN THE MATTER OF FINANCIAL REPORT REVIEW**

Director of Business Operations Christina Bramlage presented financial reports for January 2019. The reports look different due to the new accounting software at the county level. Expenses were typical for the beginning of the year; salaries, fringes, and travel are the majority of expenses paid since we have to wait for the county to be ready to process purchase order requests and to start paying bills in January. Revenue was normal with the WIC and PHI receiving a payment in January. Partial payment was received from State Subsidies. That will double this year since we are now accredited. It was moved by Mrs. Price and seconded by Mrs. Collins that the Board authorize President Harrison to approve review of the reports. Ayes: Dr. Varian, Mrs. Watkins, Mrs. Collins, Mrs. Price.
