ENVIRONMENTAL HEALTH UPDATE
Environmental Health Director Timothy M. Smith reported that Alexis Zaborniak, Sanitarian-in-Training, passed the National Environmental Health Association’s Registered Sanitarian exam and is applying for full Registered Sanitarian (RS) status with the Sanitarian Registration Board. The Board members congratulated Ms. Zaborniak.

IN THE MATTER OF NUISANCE UPDATES
Environmental Health Director Timothy M. Smith updated the Board on several nuisances.

Adriana Russell, 685 W. Center St., West Mansfield
Ms. Russell’s property contained a TV, mattresses, chair, bags of trash, and other miscellaneous items following a Sanitarian’s Order by Matthew Stonerock, RS, and a follow up inspection on July 1, 2019. A seven (7) day Board of Health order was issued on July 10, 2019. The Board of Health order sent by certified mail was received and signed by Roberta Sloan Scott and marked as agent on July 17, 2019. A follow up inspection on August 5, 2019, revealed non-compliance so the matter was filed in Municipal Court. The judge dismissed the case due to the fact that the defendant was under 18 years of age (although she is listed as the property owner with the Logan County Auditor’s office).

Donald Cunningham, 533 Grand Ave., Russells Point
Mr. Cunningham’s property was requested by Robin Reames, Mayor of Russells Point, to be inspected by the health district to determine if the structure qualified for condemnation so that the village could proceed with having the structure razed. David Miller, SIT, inspected the property on June 5, 2019, and confirmed that the structure meets the criteria that have been determined as required for condemnation: broken windows repaired with plastic and a history of non-compliance with city water and sewer service. Therefore, the Board of Health declared that the conditions constituted a public health nuisance and issued an order condemning the structure and to have the owner improve the structure into a habitable condition as verified by the local fire authority, or remove the structure and all associated solid wastes to a licensed disposal facility within thirty (30) days of receipt of the order which was July 5, 2019. Mayor Reames has reported that the local fire authority (Russells Point Fire Chief) told her that he does not have jurisdiction over residential property within the village.

Sharon K. Wellnitz (deceased), last known owner of the house at 636 High Ave., Russells Point
Ms. Wellnitz’s property was requested by a June 13, 2019, letter by Robin Reames, Mayor of Russells Point, to be inspected by the health district to determine if the structure qualified for condemnation so that the village could proceed with having the structure razed. David Miller, SIT, inspected the property on June 14, 2019, and confirmed that the structure meets the criteria that have been determined as required for condemnation: unoccupied with water service shut off. No response has been received yet from the thirty (30) day Board of Health order sent by certified mail, but a letter was received from her son Rob Wellnitz stating his desire to return to reside in the property. Mayor Reames has reported that the local fire authority (Russells Point Fire Chief) told her that he does not have jurisdiction over residential property within the village.

Carol McColloch, 13999 Oakwood Drive, Lakeview
Ms. McColloch’s property still has garbage and solid wastes piled in the backyard. The Sanitarian filed a violation of the Board of Health order in the Municipal Court. There is no further update to report at this time.

Elizabeth Clary, 10977 Elm Street, Lakeview
Ms. Clary’s property has not changed in regards to decaying wooden cabinets, piles of debris, and trash and nonworking appliances still remaining in the yard. The Sanitarian filed a violation of the Board of Health order in the Municipal Court. There is no further update to report at this time.

John Aiken, 11008 Walnut St., Lakeview
Mr. Aiken’s property still has miscellaneous solid wastes and items collecting water creating possible mosquito harborage, and he did not claim the Board’s order sent by certified mail. It was resent on June 5, 2019, and an inspection date was set for June 17, 2019. A follow-up inspection occurred on June 26, 2019. Full compliance was not attained. The Sanitarian filed a violation of the Board of Health order in the Municipal Court. There is no further update to report at this time.
**Greg Beach, 11055 Kickapoo Path, Chippewa Park, Lakeview**

Mr. Beach’s property at 13773 Kickapoo Path, Chippewa Park, Lakeview, has an inoperative automobile and a water well in the driveway with its cap flush with the gravel. If conditions have not been corrected upon the inspection date decided by the Board, the matter will be filed in the Municipal Court. There is no further update to report at this time.

**David Garrison, 16098 SR 235 N, Lot #23, Belle Center**

Mr. Garrison’s property at 11344 Chinook Path, Chippewa Park, Lakeview, contains bags of trash and debris, scrap, and as of May 23, 2019, scrap tires and an automotive battery had been added. A Board of Health order was received on June 14, 2019. A follow up inspection on July 10, 2019, showed the amount of trash to be worse and open burning has continued. The Sanitarian filed a violation of the Board of Health order in the Municipal Court. There is no further update to report at this time.

**CHACO, LLC, 424 McAdams Rd., Cable**

The CHACO, LLC’s property at 117 W. Buckingham Ave., Bellefontaine, still contains broken pallets and solid waste after receiving a Sanitarian’s Order from Lisa Engle, RS, and a follow up inspection on July 2, 2019. A seven (7) day Board of Health order was issued on July 10, 2019. The Board of Health order sent by certified mail was returned unclaimed, so it was resent through regular mail with a re-inspection planned for September 13, 2019.

**Jamie Caskey, 11113 Shawnee Path, Chippewa Park, Lakeview**

Mr. Caskey’s property still contains trash and debris and standing water in plastic containers following a Sanitarian’s Order by David Miller, SIT, and a follow up inspection on June 28, 2019. A seven (7) day Board of Health order was issued on July 10, 2019. The Board of Health order sent by certified mail was returned August 12 as unclaimed, so it was resent through regular mail. A re-inspection on August 30 revealed no change. The Sanitarian filed a violation of the Board of Health order in the Municipal Court.

**IN THE MATTER OF NUISANCE**

Environmental Health Director Timothy M. Smith reported on one nuisance.

**Scott McClain, 11291 Ash Avenue, Lakeview**

Mr. McClain’s property at 14008 Ironwood Avenue, Lakeview, contained a private water well with a bent casing that is insufficiently capped. A Sanitarian’s Order by David Miller, SIT, was issued May 24, 2019. An inspection on August 28, 2019, revealed no compliance with the order. It was moved by Mrs. Price and seconded by Mrs. Watkins to 1) declare that the well constitutes a public health hazard in violation of OAC 3701-28-08 (A) due to its being maintained in such a fashion that a safety hazard exists and contaminants may enter the ground water, 2) order such work to be performed on the private water system by an ODH-registered private water system contractor as is deemed necessary to prevent contamination of the ground water to protect public health and safety, 3) said work to be done within seven (7) days of receipt of the Board of Health’s order. Ayes: Dr. Varian, Mrs. Collins, Mrs. Watkins, Mrs. Price. Nays: none. Motion carried.

**VARIANCE REQUEST UPDATES**

Environmental Health Director Timothy M. Smith updated the Board on variance requests that were previously approved.

**Harold and Roberta Appleton, 958 Minerva Ave., Columbus, C/O Teri Frymyer, Choice Properties Real Estate**

Mr. and Mrs. Appleton requested a variance for their property at 8886 SR 368, Huntsville, from OAC 3701-28-07 (D) and (H) for a replacement well to be only four (4) feet from the house foundation and less than one (1) foot from a paved parking area. Ten (10) and five (5) feet are required for each, respectively. Unfortunately, the new well was not placed in the area as designated in the well variance. Seismic Well Drilling had agreed with David and Lori Compton, 980 Vassar Court, Fairfield, Ohio, to relocate the existing sewer line to at least nine (9) feet from the improperly-placed well, but instead took another of the three (3) options given and sealed the well and drilled another one twelve (12) feet further from the sewer line and seven (7) feet from the house.

**Henry Miller, 8769 SR 47 W, DeGraff**

Mr. Miller completed his gray water recycling system (GWRS). A ten (10) year operation permit was issued.
IN THE MATTER OF VARIANCE REQUEST

Environmental Health Director Timothy M. Smith reported on one variance request.

Kason Conley, of 595 Memorial Drive, Xenia

Mr. Conley requests a variance for his property at 9480 Beechwood Avenue, Belle Center, from OAC 3701-28-07 (G) for a new well to be drilled 19 feet 9 inches from the edge of a public roadway when 25 feet is required. It was moved by Dr. Varian and seconded by Mrs. Price to approve the variance request because the proposed well site is the only location that the well driller can place his well rig to drill a new well. Ayes: Mrs. Watkins, Mrs. Collins, Mrs. Price, Dr. Varian. Nays: none. Motion carried.
