Extra-curricular COVID-19 Decision Tree

Individual comes to Coach/Director complaining of illness (symptomatic)
- Isolate individual
- Ensure mask is being worn by them
- Coach/director dons mask and face shield
Send Them Home!

Does the individual have a positive test or is identified as a probable case or has one of these high risk symptoms?
- new cough
- difficulty breathing
- change in taste or smell

IF THIS IS A SECOND POSITIVE IN <=10 DAYS IN GROUP/TEAM
Call LCHD - for strike team testing
ENTIRE TEAM/GROUP SHOULD BE SENT HOME FOR AT LEAST 72 HOURS OR UNTIL THE SITUATION IS EVALUATED BY YOUR SCHOOL NURSE AND LCHD

YES

Does the individual have TWO or more of the following?
- Fever 100.4 (measured or subjective)
  - Chills
  - Myalgia
  - Headache
  - Sore throat
  - Change in taste or smell
  - Nausea/vomiting/diarrhea
  - Fatigue

YES

- Notify the School Nurse Immediately
Gather a list of individuals that could have been within 6 feet for 15 minutes or more and gather a list of dates in the last 3 days the ill individual was present at school

NO

The individual (s) in close contact must also be sent home with the parent letter, Quarantine for 14 days and watch for any symptoms (In box to the left) they will be contacted by the school nurse or LCHD regarding quarantine and release.
The remaining students may continue to participate

NO

After 3 days, if individual is still symptomatic, please notify LCHD. This will be treated on a case by case scenario.
- What symptoms are they exhibiting
- Are others in their group or on their team symptomatic? Etc.

CALL LCHD- 937-592-9040 option 1 to report

Follow your in place protocol for handling sick child/ staff member—May return to school in 3 days
If no fever/symptoms
